Operation Arbor

## Operation Arbor Beautifies Shell Knob, Mo.

On November 4th, the CCC Park in Shell Knob, Mo., received six new trees through Operation Arbor, a program sponsored by Carroll Electric to advance arboriculture and demonstrate how trees and electricity can live in harmony. The Cooperative understands the environmental and aesthetic benefits of trees and endorses a harmonious landscape of trees and electricity through its vegetation management program. It is well known that trees in close proximity to power lines can be hazardous and can cause an interruption in the flow of electricity. Recent storms have brought to light the importance of clear power line easements.

Through Operation Arbor, the Cooperative has an opportunity to teach proper placement and care of trees.

A team of tree professionals, including two certified arborists, worked on the tree planting project for the beautification of the CCC Park. This park is on Highway YY at the location of an historic Civilian Conservation Corps Camp from the Great Depression era. The park is maintained by several groups including the National Forest Service, Shell Knob Lions Club, Master Gardeners of the Ozarks, and the Dogwood Trail Garden Club.

Rita Hlasney poses with the Carroll Electric crew.

Rita Hlasney submitted the application for the program and is a member of the Dogwood Trail Garden Club. She shared, "Over the past few years we have lost several blooming trees and wish to maintain a natural state in the park. These new trees will keep the park attractive and be enjoyed by all those who visit. Our community is grateful to Carroll Electric for not only maintaining the power lines and keeping our lights on, but now also for improving our lovely park." The six trees will bring beautiful Spring color to this already stunning park and are visible from the entrance as well as the highway.

Committed to community is just one of the many principles embraced by Carroll Electric Cooperative's mission.

## Lineman Technology Scholarship

Carroll Electric is now taking applications to award a scholarship for enrollment in the fall 2020 Arkansas State University/ Newport High Voltage Technology Program. The Cooperative will cover the entire tuition for the one-year technical certificate program. Upon completion of the program, a 10-week paid internship at Carroll Electric Cooperative will be offered to the recipient of the scholarship. [Apply by April 1, 2020.](#)

## ANNUAL DISCLOSURE NOTICE

Carroll Electric maintains physical and procedural safeguards that comply with federal regulations to protect members' non-public personal information. The Cooperative is extremely sensitive to protecting the privacy of our members. We cannot take action on an electric account without verifying the identification of the account holder's name to ensure proper authority is being provided for the action requested. We cannot provide usage information on an account without written consent of the member using the service at the location being requested. Our consumer names and addresses are not provided to any other third-party entities. Carroll Electric does not disclose any non-public personal information about its members to anyone except as required by law or authorized by specific customers. Carroll Electric restricts access to non-public personal information about its customers to its employees, contractors, or agents who need to know the information in order to perform their jobs.

## Energy Efficiency Tip of the Month

Laundry Tip: Dry towels and heavier cottons separately from lighter clothing. You'll spend less time drying the lighter-weight items.

## Mississippi Pot Roast

1 (3-4 lbs.) chuck roast  
1 packet ranch dressing mix  
1 packet au jus gravy mix

1 stick (8 T) butter  
5 to 10 pepperoncini, pickled  
Salt and ground pepper, if desired

- Place roast in the slow cooker and sprinkle the top with ranch dressing mix and the au jus gravy mix. Place peppers on top of the mixes, add butter.
- Cook over low heat for 8 hours. Serve over noodles, rice or mashed potatoes.

Level: Easy

Total: 8 hr 5 min  
Active: 5 min

Yield: 8 to 10 servings
