

Why should you consider e-Services?

More Carroll Electric members are seeing the benefits of using e-Billing and e-Draft. Combined, these free services simplify the routine billing process and reduce administrative expenses for both members and the Cooperative.

eBilling

E-Billing provides the same information and appearance you receive with a traditional, paper bill with a faster lead time than traditional mail. You can access your bill through a secure, online member portal called **myAccount**.

With e-Draft, your bill amount is paid automatically from your checking or savings account on the due date of your electric bill. E-draft eliminates paying late fees and the worry of whether your payment will be received on time when relying on traditional mail service.

ENTER TO WIN

During the month of September, all e-Billing or e-Draft enrollments will be eligible to receive a one-time \$50 credit on their electric bill. 20 randomly chosen enrollments selected. Carroll Electric customers who are enrolled in both e-Draft and e-Billing will double their chances to win. Prizes will be awarded on or before October 15, 2022.

monthly discount

When you enroll your Carroll Electric account in both e-Draft and e-Billing, the Cooperative will provide you with a monthly e-Bundle discount on your electric bill.

Once processed, you will begin to receive a **\$1.00 CREDIT** each month you remain enrolled in both programs.

ANNUAL BENEFIT
\$12 & MORE

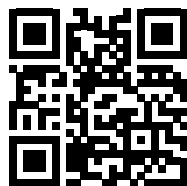

Members already enrolled in both options on their account will automatically receive the e-Bundle discount.

NOTE: The e-Bundle discount is limited to one per member who participates in both electronic billing (e-Billing) and electronic draft (e-Draft) on the same account.

my co-op

To enroll in e-Billing, e-Draft, or both programs, please visit carrollecc.com/eservices, use the QR code below, or call one of our friendly customer service representatives at 1.800.432.9720.
